

## Technical Data Sheet

**Product Information:**

Chemical Name	N-Ethyl-N-hydroxyethyl-aniline		
Structure		CAS No.	92-50-2
		EC No.	202-160-9
Formula	C <sub>10</sub> H <sub>15</sub> NO	Molecular Weight	165.232

**Specification:**

Appearance	Primrose yellow solid	Purity (%)	99.19
N-ethylaniline (%)	0.35	N,N-dicthylaniline (%)	0.31
Others (%)	0.15		

**Application:**

Application	As a dyestuff and organic pigment chemical intermediate.
-------------	--

**For more detailed information please refer to the material safety data sheet.**
