

## Technical Data Sheet

### Product Information:

|               |   |                  |           |
|---------------|---|------------------|-----------|
| Chemical Name | 1H-pyrazole   |                  |           |
| Structure     |  | CAS No.          | 288-13-1  |
|               |   | EC No.           | 206-017-1 |
| Formula       | C3H4N2  | Molecular Weight | 68.08     |

### Specification:

|                    |                                |              |      |
|--------------------|--------------------------------|--------------|------|
| Appearance         | Crystals or Crystalline Powder | Assay (%)    | 99.8 |
| Melting Point (°C) | 67.6-67.9                      | Moisture (%) | 0.17 |

### Application:

|             |   |
|-------------|---|
| Application | <p>It is used as a ligand for the preparation of organic metallization and compounds.</p> <p>Pyrazoline, a derivative of pyrazole, is an important intermediate of medicine and dyes.</p> |
|-------------|---|
